

SOUTH CAROLINA LAW ENFORCEMENT DIVISION

JIM HODGES
Governor

ROBERT M. STEWART
Chief

Memorandum

DATE: November 20, 2000
TO: Captain Earl Wells
FROM: Lt. Corbett Lewis 
RE: Requested Exceptions to Implied Consent Policy 8.12.15

The Policies of the Implied Consent Department are contained in Chapter 8 of the SLED Policies and Procedures Manual. I request two exceptions to Policy 8.12.15 that are necessary to allow implementation of a new software version for the BAC DataMaster. The first exception concerns Policy 8.12.15, Specific Procedures, (4) "NUMBER OF INJURIES (0 - 9)". In addition to this prompt, I request that "NUMBER OF INJURIES?" be accepted as a South Carolina Law Enforcement Division (SLED) approved prompt. This prompt allows the operator to enter injuries greater than nine. The Specific Procedures for this prompt are "This question will only appear if a "Y" is entered for question (3). Enter a one or two-digit number up to ninety-nine (99) and press "RETURN". Deaths are to be counted as injuries."

The second exception to Policy 8.12.15, concerns Specific Procedures, (31) "CERT #". In addition to this prompt, I request that "OPERATOR CERTIFICATION #" be accepted as a SLED approved prompt. This prompt is more consistent with the prompts for time stamp and complaint/problem/malfunction records. The Specific Procedures are the same.

Exceptions approved
11-21-00
Earl Wells
